After shows with "Tanger Sessions" in Germany, Denmark, Spain, Morocco and Switzerland in

2009 the matured "Tanger Sessions" project will be available in 2010 as well. In February/March and in fall 2010 Dissidenten will be touring the US. May will see the "Tanger Sessions" performed at the prestigious Mawazine Festival in Rabat, the biggest event in Morocco. Almost 30 years after the phenomenal success of their groundbreaking album "Sahara Elektrik", DISSIDENTEN once more return to the heart of the Maghreb. But after 9/11 and "war on terror" the world is not the same anymore. Together with their friends from Jil Jilala they recorded the album "Tanger Sessions", an album that surprises with hard rocking electric guitars

and driving rhythms. This time, the contemporary world of global warfare is captured by screaming strings, crashing drums, pumping basses, hypnotic hurdy-gurdies and psychedelic flutes, and Dissidenten are catapulted into a tangible world of reality, far removed from the former multicultural Flower Power ideal.
